

Owner: \_\_\_\_\_ Reviewer: \_\_\_\_\_

**Overall coding style**

Topics	OK? (Y/N)	Comments
1. Indentation		
2. Curly braces and spacing between lines		
3. Cases in names (e.g., capitalized class name, camel-case method names, etc.)		
4. Use of <b>var</b> keywords		

**Function/method #1:** \_\_\_\_\_

Function/method name: \_\_\_\_\_ Source file: \_\_\_\_\_

Topics	OK? (Y/N)	Comments
1. Readability. (Is it understandable?)		
2. Size (Is it too long? It should not be longer than one screen, e.g., about 15-20 lines)		
3. Nested structures (It should not have nested control structure deeper than 3 levels)		
4. Naming. (It should use good names for variables.)		

List variable names that are good here:

List variable names that can be improved here:

**Function/method #2:** \_\_\_\_\_

Function/method name: \_\_\_\_\_ Source file: \_\_\_\_\_
